

Q3 2024 Regional Revenue Performance Summary

In Q3 2024, our global revenue continued its upward trajectory, driven primarily by expansion in enterprise SaaS subscriptions. North America remained the strongest performing region, while Europe delivered steady growth across mid-market segments. APAC experienced temporary volatility due to regulatory compliance adjustments in Q2, followed by early signs of recovery in Q3. The following chart illustrates quarterly revenue performance across all major regions over the past four quarters.

As shown above, North America accounted for the majority of overall revenue growth, increasing from \$82M in Q4 2023 to \$118M in Q3 2024. Europe demonstrated consistent improvement across all quarters. Although APAC revenue declined in Q2, the rebound observed in Q3 suggests stabilization in regional operations.
